52.216-18 ORDERING. (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from receipt of

satisfactory Performance and Payment Bonds for one year or such additional time as extended by exercise of option(s) under FAR 52.217-9, OPTION TO EXTEND THE TERM OF THE CONTRACT (NOV 1999) or FAR 52.217-9, OPTION TO EXTEND SERVICES (NOV 1999).

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

52.216-19 ORDER LIMITATIONS. (OCT 1995)

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$2,000.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum order. The Contractor is not obligated to honor:

(1) Any order for a single item in excess of \$500,000.00;

(2) Any order for a combination of items in excess of \$500,000.00; or

(3) A series of orders from the same ordering office within 2 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) above.

(d) Notwithstanding paragraphs (b) and (c) above, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 2 days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-21 Requirements. (OCT 1995) -- ALTERNATE I (APR 1984)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Delivery-Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders

issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirements for supplies and services specified in the Schedule that exceed the quantities that the activity may itself furnish within its own capabilities.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 5 years and 6 months from the date of initial performance.

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 30 days of expiration of the current year.

(End of clause)

52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days of expiration of the current year; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years and 6 months..

(End of clause)

52.219-14 LIMITATIONS ON SUBCONTRACTING (DEC 1996)

- (3) General construction. The concern will perform at least 15 percent of the cost of the contract, not including the cost of materials, with its own employees.

The information submitted by the offeror for each of the listed areas will be evaluated independently from each other and in the order listed below. Therefore, each of the separate areas must be complete, able to stand alone, and have no inferred or actual reference to any other areas of the proposal. The proposal should include all the requested information but should be succinct. Proposals should be clear and legible, but it is unnecessary to have special printing, binding, use of color, or graphics.

Personnel, equipment, and methods stated in the proposal shall be used in accomplishing the work, unless superseded by the contract specifications, or the COR gives prior approval for a variation. The Government will include adherence to the proposal in its evaluation of the contractor's performance.

Present each of the following items in the order listed, starting each on a separate page. Complete each in accordance with the content, format and information specified:

Include experience that demonstrates similar work or contracts.

(b) Subcontractors – Provide a list with all proposed subcontractors and their qualifications. This should include the subcontractor's name, address, phone number and past experience, including similar work or contracts.

Specifically, you should include information on how many crews, whether they are contractor employees or subcontractors, number of personnel in each crew, which crews will cover what areas, distance between areas, schedules, the amount and type of equipment and vehicles to transport equipment and crews, plans for equipment breakdown, and the impact of weather variations.

(5) Quality Control.

(a) Provide a Quality Control Plan and explain how your Quality Control Plan will insure the identification and correction of deficiencies in a timely manner. Indicate inspection methods such as planned, 100% or random, and frequency of inspections. The plan should show how quality control will be handled with the different levels of work, different sections of the contract, and types of inspection needed to meet the contract requirements. Section M - Evaluation Factors for Award

CLAUSES INCORPORATED BY FULL TEXT

52.217-5 EVALUATION OF OPTIONS (JUL 1990)

(a) Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

(b) The Government may reject an offer as nonresponsive if it is materially unbalanced as to prices for the basic requirement and the option quantities. An offer is unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.

(End of provision)

EVALUATION CRITERIA

SECTION M
EVALUTION FACTORS FOR AWARD

1. PRICE BASIS. Prices must be firm-fixed.

2. DISCOUNTS. Prompt payment discounts will not be considered in the evaluation of offers. However, any offered discount will form a part of the award, and will be taken if payment is made within the discount period indicated in the offer by the offeror. As an alternate to offering a prompt payment discount in conjunction with the offer, offerors awarded contracts may include prompt payment discounts on individual invoices.

3. EVALUATION CRITERIA.

Content and Rating. Proposals shall be specific and complete in every detail and shall contain the information necessary to properly evaluate the contractor's capability in the areas listed. See SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS, for specific instructions pertaining to the preparation of proposals. Proposals should include all the requested information but should be succinct. Length will not be evaluated. Special printing, binding, use of color, or graphics is not required and will not receive a higher rating. Proposals will be evaluated based on the degree to which the proposal meets, fails to meet, or usefully exceeds the standards established for individual factors. Proposals will be rated Outstanding, Above Average, Satisfactory, Marginal, or Unsatisfactory. Proposals will be evaluated in accordance with the factors contained in the paragraph 4, and these are listed in descending order of importance. Evaluation factors related to the technical proposal are significantly more important than cost or price.

Definitions:

Outstanding: A proposal which meets and exceeds a majority of the standard evaluation criteria to the Government's benefit; has no significant weaknesses; high probability of success.

Above Average: A proposal, which meets and exceeds some standards to the Government's benefit; no significant weaknesses and few minor problems; a good probability of success.

Satisfactory: A proposal which meets all standards. Few minor problems which do not appear to interfere with the contractor successfully fulfilling the contract requirements.

Marginal: A proposal which fails to meet some standards; some significant weaknesses; a low probability of success, but might be improved if discussions are held.

Unsatisfactory: A proposal which has no reasonable chance of success; deficiencies exist that fail to satisfy the Government's requirements. Major flaws exist which cannot be remedied without substantial rewrite and cost.

4. Part I – Technical Proposal.

Management Plan.

(1) Company Experience & Past Performance. The offerors' background will be evaluated based on company experience and past performance.

(a) Company Experience. Offerors will be evaluated on Experience in performing the types of services described in Section C – Description/Specifications. Elements to be evaluated will include but not necessarily be limited to, the similarity to recreation areas and facilities operated and maintained under this contract, project size, and complexity.

(b) Past Performance. Offerors will be evaluated on their record of conforming to specifications and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; control of costs, including costs incurred for changed work; concern for safety and accident prevention; reasonable and cooperative behavior and commitment to customer satisfaction. The Government will consider information in the offeror's proposal and information obtained from other sources. Evaluation of past performance will be a subjective assessment based on a consideration of all relevant facts and circumstances. It will not be based on absolute standards of acceptable performance.

(2) Personnel. Offerors will be evaluated on the demonstrated skill, experience, and ability of contractor personnel with supervision and management responsibilities and the subcontractors' qualifications. Experience with similar work or contracts will be considered. The qualifications of contractor employees have somewhat greater weight than subcontractors.

(3) Operations Plan. The offerors will be evaluated on the adequacy and appropriateness of their Operations Plan for Sections 3 & 4 to accomplish the work, whether employed by the contractor or by subcontractors. See Section L – Part I, Technical Proposal for the specific information that should be included in the Operations Plan. The Operations Plan will be evaluated based on its completeness and demonstration of the offeror's understanding and ability to accomplish the requirements of the work.

(4) Quality Control. Offerors will be evaluated on adequacy, appropriateness, and completeness of the procedures in the Quality Control Plan to insure compliance with the contract specifications, the adequacy of the proposed quality control organization, and the adequacy of the system of record keeping and reporting. See Section L – Part I, Technical Proposal for the specific information that should be included in the Quality Control Plan. The evaluation of the Quality Control Plan will consider the inclusion of inspection forms, the role of the superintendent, and the use of independent quality control inspectors.

Part II – Price Proposal.

Each item of the bid schedule will be reviewed for completeness and compatibility with the technical proposal and assurance that it is not materially unbalanced. The reasonableness of each offeror's price proposal will be evaluated based on the Governments' cost estimates and the offeror's technical proposal to the scope of work. Even though the total contract price for Initial and Option Years will be evaluated, the primary emphasis will not be placed only on the lowest bid, except as mentioned below. Price will be evaluated and will not be numerically scored.

Negotiated Procurement. In negotiated procurements, "bid" and "bidder" shall be construed to mean "offer/proposal" and "offeror".

The Government may reject an offer as unacceptable if it is materially unbalanced as to the prices for the basic requirement and the option quantities. An offer is unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.

This is a requirements contract. Award will be made to one contractor who represents the best value to the government.
